

```
public class Mail {
    public void send() {
        // ...
    }
}

public class Mail {
    public void send() {
        // ...
    }
}
```

```
public class Mail {
    public void send() {
        // ...
    }
}

public class Mail {
    public void send() {
        // ...
    }
}
```
